

Material Handling Systems

Screw conveyor, raw material bin and metering bin systems.

- Custom-designed for your specific application in a wide range of material gauges, Dupps material handling equipment features heavy-duty screw conveyor drives designed to withstand the stresses of rendering operations.
- Raw material and metering bins are configured to your specifications, to any capacity.
- Screw conveyors feature a worm gear rather than shaft mounted reducer for longer life and less maintenance. Heavy-duty bearings and drive shafts, plus gear guards designed provide easy access and maximum protection.
- Accessories and construction to handle any rendering raw material or finished product with no chance of product contamination.
