The Dupps Company named one of the healthiest employers in Ohio

GERMANTOWN, OHIO — The Dupps Company has been recognized as one of the 2024 Healthiest Employers of Ohio, an awards program created to honor people-first organizations that prioritize the well-being of their employee population. One of only three Ohio manufacturing companies to be recognized, this is the tenth year the company has received this prestigious award.

Frank Dupps, President of The Dupps Company, spoke about the organization's commitment to initiatives that actively promote health and wellness. *"Emphasizing employee well-being isn't just the right thing to do, it's the foundation for a thriving, engaged workforce. We're not only able to enhance productivity and job satisfaction, we have the opportunity to help improve the quality of life for all our employees' families throughout our communities. Wellness is part of our culture here at Dupps, and we're proud that our programs are recognized among Ohio's best."*

Among the company's wellness initiatives is "Commit 2B Fit", a comprehensive program of healthy activities, on-site health screenings, in-house nurse practitioner's care, nutritional programs, wellness counseling and financial incentives for maintaining a healthy lifestyle.

The Dupps Company is a worldwide leader in protein recycling systems and service. From its founding, Dupps has focused on renewable resources, starting with the 'original recyclers' — those rendering companies around the world that

recycle millions of tons of animal byproducts every year. Dupps offers a comprehensive range of protein co-products processing equipment, service and support for red meat, pork, poultry, and fishmeal applications.

Serving those who renew, recycle and sustain

We continue to grow our capabilities, expanding our products and services to include:

- Oil Seed Processing
- Insect Protein Processing
- Pulp & Paper Dewatering
- Special Process Applications
