AND MUCH MORE

**Universal Maintenance USA and Sunrise USA
are proud members of the Dupps family of companies.**

With nearly nine decades of service covering a wide range of industries, our combined resources stand ready to support every plant need, with on-time and on-budget performance for complete installation, fabrication, and plant construction services — plus unsurpassed facility and equipment maintenance capability.

We offer a dedicated team of skilled craftsmen with the expertise and experience to install, maintain, repair, troubleshoot and move your heaviest industrial equipment safely and efficiently. Whether it's a turnkey project, installation or fabrication of a single piece of equipment, or an emergency repair to get your plant up and running as fast as possible, we have what it takes to get the job done right.

24/7/365

The service you need, when you need it.

- *Scheduled or emergency, you can count on complete millwright, plant maintenance, fabrication and installation services.*
- *We're committed to rapid response, around the corner or half-way across the country — we have the expertise and will travel!*
- *From short-term work orders to projects lasting months, our crews are an extension of your own plant's service, fabrication and maintenance teams.*
- *You can count on a thorough jobsite assessment before work begins.*
- *With heavy-duty rigging capability up to 350,000 lbs., we can handle nearly every equipment installation or removal job.*

Universal Maintenance™

A Dupont Company

Universal Maintenance USA provides 'lock and key' service for any kind of job, large or small.

- Millwright Services • Rigging & Crane Work
- Material Handling & Conveyors
- Storage Equipment and Tanks
- DAF & Other Water Filtration Systems
- Scrubber System Maintenance
- Process Piping • Floor Drains
- Walkways & Platforms • Duct Work
- Insulation • General Plant Maintenance
- Rotary Lobe Pump Repair & Rebuilds

Universal Maintenance USA has a fully equipped and staffed fabrication shop — this capability, combined with dedicated field service, give our customers a competitive edge by reducing breakdowns, maintaining equipment, and having us readily available in an emergency.

With years of experience in process industries, Sunrise USA has established itself as a leader in key areas of plant operations, assuring that every job is done right, and on time.

- As heavy rigging specialists, you can trust the Sunrise team to safely and efficiently install and remove even the largest machinery, ancillary systems and major machine components.
- Sunrise provides complete millwright services including machinery installation repair and maintenance. We also produce a wide range of manufactured equipment, including fabrication and assembly of material bins, tanks, conveyor equipment and more.
- Difficult-to-find repair and rebuild service for all kinds of process machinery — including gearboxes and drum dryers — is another area of expertise that Sunrise can handle efficiently and economically.

If you're ready for comprehensive, on-time and on-budget industrial plant services, we're ready to provide it.
