

Pressor[®] High Pressure Screw Press

**Designed for higher throughput
and lower fat residuals from a
variety of rendered materials.**

**Long service life and low
maintenance costs.**

- Choose from a wide range of sizes and configurations to meet every rendering application—from the largest, with a 12” shaft for increased throughput and improved feed capability on soft, difficult-to-press materials, to a compact and efficient 7” model ideal for smaller plants.
- Pressors are available with horsepower ratings between 60 to 200 HP and a choice of shaft configurations.
- All Pressor models offer proven reliability, rugged construction and feature a single motor to drive all mechanical parts.
- Available with the new Dupps Hybrid HCPR (High Compression Press Release) shaft for up to 25% lower residuals in most rendered products.

Pressor[®] High Pressure Screw Press

Designed for higher throughput
and lower fat residuals from a
variety of rendered materials.

Long service life and low
maintenance costs.
